## MEDICATED STEAM Vermin Destroyer

DISINFECTANT, NEW AND WONDERFUL INVENTION.

The apparatus for generating the steam is an ordinary nursery lamp holding half a pint of the Medicated Fluid, with a tube at the top to direct the Medicated Steam upon any top to direct the Medicated Steam upon any point infested with insects. It is heated with a small spirit lamp beneath the boiler. For Dwellings, Hotels, Steam Ships, Restaurants &c., nothing ever discovered equals this appliance. It is harmless to human life; is inexpensive and simple in its use. While a most potent means for destroying Vermin it is the best disinfectant known and may be most effectually used to prevent the spread it is the best disintectant known and may be most effectually used to prevent the spread of contagious diseases, such as Yellow Fever, Scarlet Fever, Typhoid Fever, Diptheria, Small Pox, &c. One trial is the best proof of the great advantages of this over all other appliances. For sale by Druggists and Gen-eral Dealers,

Since the Harry's return from Pa-ducah she has been visited and admired by a great many people, and Captain Milt has been loaded down with congratulations in having such a perfectly adapted boat for that trade, and being able to keep her so nearly new. The Josie Harry will attract attention up White river.

Yesterday a writ was issued against the boat for payment of the engineer's claim for wages, etc. To-day M. D. Maguire, watchman, filed a claim for libel against the boat on account of wages for \$124.

The J. B. M. Kehlor, which Captai Thorweigan is now having transformed int

a cotton carrier, will come up to any boat as regards dimensions. She is 375 feet long, 75 feet beam, 12 feet at the bow and 9 feet aft. She will have no guards and will be able to carry 3200 tons. The machinery of the Grand Tower will propel her. St. Louis Globe-Democrat, Thursday: "The funeral of Lem Gray, one of the pilots of the ill-fated Gold Dust, took place yesterday from the residence of Captain A. J. Carter, in Cote Erilliante. The pall-bearers were all Anchor-Line pilots, and the floral tributes were many and beautiful. A more popular man than Lem Gray never turned a wheel."

Evansville Journal, Thursday: "The officers of the Rainbow report the Vint Shinkle hard aground at Peckenpaugh's bar, with the Mattie Hays alongside of her trying to lighten her off. They report only 5½ feet on the shoalest bar, with no defined channel. The Shinkle is drawing full 5½ feet, and will have further difficulty getting down. She will probably be here this morning early." Evansville Journal, Thursday: "The office The officers of the James Lee report the frowning of John Dooley, watchman on the Katie Hooper, while that boat was lying at iall overboard and disappear beneath the water. John Dooley was a young white man, raised in Memphis, where his relatives

reside. He was a brother-in-law of Mr. Quiun, constable of the Fifth district of Orleans Times Democrat writes: "There is a good deal of quiet talk about there being established for the coming season a line sidewheel boats from this point to New Or-leans, in connection with the Chesapeake and Ohio Railroad Company. It seems there is a great deal of dissatts action among Ohio river steamboatmen with the present organization. There is also a move to be made for the reorganization of the Memphis and Cin cinnati trade by the addition of a number of sidewheel boats not now in the trade, notes

for their speed and passenger accommoditions. I give the above as Dame Rumo St. Louis Republican, Thursday: Commonwealth was brought to the whar yesterday from retirement (where she has undergone a thorough overhauling), looking as 'neat as a pin,' and will be found at the company's wharfboat ready to depart to-day at 5 o'clock p.m. for Vicksburg and way landings. Captain John T. McCord, late master of the destroyed Gold Dust, having sufficiently recovered from his injuries, will be found in charge of her. Mr. Charle Gould, a rising young boatman, is her chiefclerk, and Joe Dukes and Gus Block have charge of the freight department. The Commonwealth will now retain the Thursday

parture, which will be remembered as that the ill-fated Gold Dust. Captain Jos Bird is freight agent." The Pittsburg Times says: "Captain W. C Tichenor, who will command the new steame Tichenor, who will command the new steamer Will S. Hays, was in the city on Saturday, and left for home in the evening. Captain Tichenor is delighted with the model and general adaptation of the new boat. The machinery is progressing favorably. The Hays is a boat that is destined to create a sensation in the Mississippi. The fact is, the time for slow passenger boats is passed, and the sooner boatmen realize this fact the better. Even when people are not in a burry the sooner boatmen realize this last the bester. Even when people are not in a hurry they will be certain to take the fastest boat. Cincinnati will have to wake up. The boats in the Memphis trade are not what they ought to be, with scarcely an exception. The boats in the Cincinnati and New Orleans

trade will have to be improved in the nex future if they wish to retain that trade,' WEATHER AND RIVERS.
